A CALL TO LORD AND LADY

She lives and breathes upon the Earth
Her wheel spins round the hub of June
She is the web of life and birth
Her smile floats softly with the moon

Heart of life, and caring mother
Loving sister, noble princess
Firebird spirit, restless lover
Shadowy hidden sorceress

His strength is there in mountains high
His lightning flys from air and cloud
His horn heralds the wild hunt's ride
He quickens forest, roaring proud

Children's friend, protecting father
Watchful brother, noble fighter
Laughing wise one, dark magister
Player of pipes, thoughtful sheperd

Their faces many, countless names
Pan, Diana, Zeus, Astarte
Teachers from dreams, oracle's flames

Speak, and guide us within our hearts
